

PAIN? NOT A BIT! LIFT YOUR CORNS OR CALLUSES OFF

No humbug! Apply few drops
then just lift them away
with fingers.

This new drug is an ether compound discovered by a Cincinnati chemist. It is called freezone, and can now be obtained in tiny bottles as here shown at very little cost from any drug store. Just ask for freezone. Apply a drop or two directly upon a tender corn or callus and instantly the soreness disappears. Shortly you will find the corn or callus so loose that you can lift it off, root and all, with the fingers.

Not a twinge of pain, soreness or irritation; not even the slightest smarting, either when applying freezone or afterwards.

This drug doesn't eat up the corn or callus, but shrivels them so they loosen and come right out. It is no humbug! It works like a charm. For a few cents you can get rid of every hard corn, soft corn or corn between the toes, as well as painful calluses on bottom of your feet. It never disappoints and never burns, bites or inflames. If your druggist hasn't any freezone yet, tell him to get a little bottle for you from his wholesale house.—adv.

But She Didn't.

She was a very newly fledged baroness or duchess or something like that, and, somehow or other, she became thick with a professor, as the classical blokes would have it, and he invited her to come to his observatory to see the eclipse, says London Ideas.

"I've come to see the eclipse," she told the professor's assistant. "Professor Squashnoodle invited me to come."

"I'm sorry, but the whole thing was over an hour ago," said the assistant, contritely.

"Then," said the dignified dame, "I will wait for the next."

Dr. Peery's "Dead Shot" is powerful but safe. One dose is enough to expel Worms or Tapeworms. No castor oil necessary. Adv.

All Figurative.

"My dear," said a young married man, "I have changed my mind about going out riding tonight."

"May I be permitted to inquire the reason why?" responded his sarcastic wife.

"You may."

"Well, what is the reason?"

"My darling, in the first place, rather expensive, and, in the second place, I don't want to go."

"I don't care a fig."

"In that case, I presume you have a date."

THIS DRUGGIST KNOWS BEST KIDNEY MEDICINE

Sixteen years ago I began to sell Dr. Kilmer's Swamp-Root and today I believe it is one of the best medicines on the market; and my patrons are very much pleased with the results obtained from its use and speak very favorably regarding it. Swamp-Root has been very successful in the treatment of kidney, liver and bladder troubles according to the reports received and I have no hesitancy in recommending it for I have great faith in its merits.

Very truly yours,
Owl Drug Store,
By R. F. Boies,
Sedalia, Missouri.

Letter to
Dr. Kilmer & Co.,
Binghamton, N. Y.

Prove What Swamp-Root Will Do For You. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Large and medium size bottles for sale at all drug stores.—Adv.

Her Choice.

Hazel was at a loss to make a choice between two young sprouts in her garden of love. She desired a hardy plant, one that would thrive in any soil and under any conditions. No shadow must prevent the sprout selected from growing.

Every day could not have its full allotment of sunshine. Which would she choose? Either was pleasing to the eye. Then came a day when the wind blew hard—a draft from one end of the country to the other.

One of the sprouts withered from the biting blast. The other thrived and grew as though it had been blessed with continual sunshine. Now Hazel is happy. Her choice has been made.—Indianapolis News.

She Would Get Even.

Marcellis was very fond of playing with the calves. One day one chased her. Very much frightened, she crawled under the fence and said, "You can stand there looking at me now, calf, but I'll have some of you in my stomach before long."

Any man who is able to dodge unhappiness is just about as happy as it is possible for man to be.

Temperance Notes

(Conducted by the National Woman's
Christian Temperance Union.)

BILLY SUNDAY ON AMERICA.

I would like to do this: I would like to see every booze-fighter get on the water wagon. I would like to summon all the drunkards in America and say: "Boys, let's cut her out and spend the money for flour, meat and calico; what do you say?"

Come on; I'm going to line up the drunkards. We will line up in front of the butcher shop. The butcher says: "What do you want, a piece of neck?"

"No; how much do I owe you?"

"Two dollars." "Here's your dough."

Now give me a porterhouse steak and a sirloin roast."

"Where did you get all that money?"

"Went to hear Bill, and climbed on the water wagon."

"Hello! What do you want?"

"Beefsteak."

We empty the shop and the butcher runs to the telephone. "Hey, central, give me the slaughter-house. Have you got any beef, any pork, any mutton?"

They strip the slaughter-house and then telephone for trainloads of beefsteaks.

"What's the matter?"

"The whole bunch has got on the water wagon."

And the big packers say to their salesmen: "Buy beef, pork and mutton," and the farmers see the price of cattle and sheep jump up to three times their value.

Let me take the money you dump into the whisky hole and buy beefsteaks with it. I will tell you what is the matter with America: Your children are going naked and the whisky gang has your money.

SHALL WASTE CONTINUE?

"The fermented rather than the distilled liquors call for the greatest consumption of grain in the liquor business," asserts the dean of the college of agriculture, Illinois university, writing in the Atlantic Monthly. "That is to say, about 120,000,000 bushels—or approximately the world's shortage—are used for fermented liquors, against some 35,000,000 bushels, practically none of which is wheat, used for distillation."

To transport the grain now used for fermented liquor in the United States alone would require the entire fleet of a thousand wooden ships, such as are now contemplated for the war fleet. This 120,000,000 bushels of grain is the equivalent of over half the wheat crop of France or of Canada.

twice that of England. It represents the entire grain food of over 15,000,000 people, and that is no negligible amount. It represents in the form of meat no less than 750,000,000 pounds, or the carcasses of more than a million of the heaviest beefs.

"With people starving abroad, with large sections of Europe desolate, and with food riots beginning in this country as a result of high prices, there can be but one answer to the question whether this wastage shall continue."

JAB FROM THE LANCET.

"The enormous expenditure on drink—even if drink were innocuous—implies a corresponding abstraction of wealth from useful and beneficial uses. But drink is not innocuous. It is the most powerful and fascinating of all means of degradation and disease which unfortunate human nature can find to debase itself. Every medical practitioner sees illustrations of this almost every day of his life. . . . The bishops have set us an example, and we of the medical profession have also our religious duties."—London Lancet.

NINETY PER CENT ACCEPTED.

War-time conditions have brought to light a new and unanswerable argument in favor of prohibition. It has been a source of no small concern that no larger a per cent of the young men of the country were able to meet the physical requirements of the army and navy. A Y. M. C. A. secretary has made a significant discovery. He has ascertained that while but 25 per cent of the young men from a certain license state were accepted for army and navy service, 90 per cent of those who enlisted from Kansas, the veteran prohibition state, were up to grade.

A DELUSION.

Sending blood to the head, where it surges through the brain with increased velocity, is not increased vigor, but increased irritation, which comes just before anaesthesia and diminution of power. The drinker deludes himself, for he only thinks he is thinking. His very first drink has produced a definite, measurable degree of intoxication.—Dr. Edwin F. Bowers, in the American Magazine.

BARLEY IN SOUP.

The women will economize. They are eager to. They want to do everything in their power to help. They know, too, that barley is just as good in soup as it is in beer.—Dr. Anna Howard Shaw.

CAN'T AFFORD TO DRINK.

I have long since come to the conclusion that as a mental worker I cannot afford even a small drink of wine or beer. I have only a little intellect, and I have to keep that in working order.—Prof. Walter Rauschenbusch.

COVER KEEPS AUTOMOBILE LUGGAGE CLEAN

INEXPENSIVE AND CONVENIENT, DUST-PROOF COVER.

The luggage which you are carrying in the rear seat of your automobile need not be exposed to dust and rain if you use a cover recently designed by Arthur Paulson of New York city. It is inexpensive and convenient. When stretched over the rear of the car, covering the entire rear seat and the floor space in front of it, as one of the accompanying illustrations shows, it will protect everything that you carry from the dust of the road.

The cover consists of leather or rubberized canvas which has the shape of the rear portion of the car. Ordinarily, the cover is folded and is stored

away in the cloth casing which surrounds the automobile top when it is folded away in the rear. One end of it is attached by fasteners to the edge of the casing. When it is to be used, one pull will suffice to bring it out from its position under the casing.

After the luggage has been placed in position on the floor and on the seat, the cover is made fast by attaching it to fasteners placed on the cover top, the doors of the automobile and the back of the front seat.

In addition to keeping your luggage clean, the cover protects it from thieves.—Popular Science Monthly.

lay out of our cities by reason of highway development. The millions of dollars formerly spent by tourists in European countries is now being spent by Americans in "seeing America."

Recent Traffic Census.

That the highway is an even more important factor in transportation than the railway is being shown day by day with increasing emphasis. Recently a traffic census of a highway leading out from Akron, O., showed that it carried considerably more tonnage than any of the main lines of railway leading out from the same point.

The post office department will serve the interests of the country to the very highest degree by developing a policy of through mail routes on highways as rapidly and as thoroughly as it is possible in these abnormal times.

DO NOT OVERHEAT RADIATOR

Good Deal of Trouble May Result During Summer Months If Necessary

The motor car is heir to certain seasonal troubles, for which provision must be made in advance, if one is to ride in comfort. In winter the freezing of cooling water must be guarded against by using an antifreezing mixture. In summer just the other extreme, overheating, must be guarded against. There are a number of things that may cause this trouble, and to prevent it all the sources must be overhauled.

To begin with, the radiator ought to be drained, to see if the water runs freely throughout the entire length. By pouring water into the empty radiator it may be determined very easily whether or not the water is flowing through freely. Often enough there may be an obstruction, preventing rapid flow, which turns out to be simply some minor sediment around the drain-cock. In this case a match thrust upward will clear away the obstruction. If there is an overflow pipe, this is a possible location of trouble, as dirt often gathers around the lower opening. The rubber connections in the cooling system ought to be taken out and the inside examined. If the fabric is broken and hanging, renew the connections. The fan belt should be carefully looked over, given a dose of oil, and tightened up if need be.

VIRGIN ISLANDS UP TO DATE

According to Latest Register, There Are 24 Cars and Three Trucks Owned by Inhabitants.

Our new possessions, the Virgin Islands, lying just east of Porto Rico, acquired from Denmark by purchase, have not been immune from the automobile, although cars there are not numerous. The latest register shows 24 cars and three trucks. The islands have an area of 83 square miles and a population of about 20,000. There are about 100 miles of good roads. All vehicles follow the European rule of the road, passing each other on the left when meeting and on the right when overtaking.

IN CASE OF GASOLINE FIRE

Water Should Never Be Used to Extinguish Flames—Smother Rizez With Sand or Sawdust

If you are so unfortunate as to be the victim of a gasoline fire in your garage, or anywhere else for that matter, remember gasoline does not mix with water, and consequently water should never be used to extinguish such a fire. If a patent fire extinguisher is not at hand throw sand on the blaze, or use sawdust. The latter is not easily ignited, and when it does burn there is no blaze of any consequence.

Open-Air Exercise and Carter's Little Liver Pills are two splendid things For Constipation

If you can't get all the exercise you should have, its all the more important that you have the other tried-and-true remedy for a torpid liver and bowels which don't act freely and naturally. Take one pill every night; more only when you're sure its necessary.

CHALKY, COLORLESS COMPLEXIONS NEED CARTER'S IRON PILLS

Some Information.

"Sedentary work," said the lecturer on physical torture, "tends to lessen the endurance."

"In other words," butted in the smart Aleck, "the more one sits the less one can stand."

"Exactly," retorted the lecturer, "and if one lies a great deal one's standing is lost completely."—Judge.

Advertising the Enemy.

"The editor of the Plaindealer has a good deal more enthusiasm than judgment," commented Farmer Hornbeak, in the midst of his perusal of the village newspaper. "Here he's got a long editorial fiercely attacking the kaiser, when if he'd just let the scamp severely alone people would soon forget all about him."—Kansas City Star.

The average man thinks he is broad minded because he is willing to forget the wrong endured by others.

Men with long heads are capable of using them on short notice.

Every Woman Wants

Partine

ANTISEPTIC POWDER

FOR PERSONAL HYGIENE

Dissolved in water for douches stops peptic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years.

A healing wonder for nasal catarrh, sore throat and sore eyes. Economical. Has extraordinary cleansing and germicidal power.

Sample Free. Ship all druggists, or postpaid by mail. The Partine Toilet Company, Boston, Mass.

W. N. U., CINCINNATI, NO. 39-1917.

Eager to Know.

Hawkins—Those are the real facts in the case.

Dawkins—Good! Now, what are the imaginary facts?

Our idea of a sensible woman is one who doesn't care how large her shoes are so long as they are comfortable.

YOU NEED NOT SUFFER WITH BACKACHE AND RHEUMATISM

For centuries GOLD MEDAL Haarlem Oil has been a standard household remedy for kidney, liver, bladder and stomach trouble, and all diseases connected with the urinary organs. The kidneys and bladder are the most important organs of the body. They are the filters, the purifiers of your blood. If the poisons which enter your system through the blood and stomach are not entirely thrown out by the kidneys and bladder you are doomed.

Weakness, sleeplessness, nervousness, despondency, backache, stomach trouble, headache, pain in loins, and lower abdomen, gait-stones, gravel, difficulty when urinating, cloudy and bloody urine, rheumatism, sciatica, lumbago, all warn you to look after your kidneys and bladder. GOLD MEDAL Haarlem Oil Capsules are what you need.

They are not a "patent medicine" nor a "new discovery." For 200 years they

have been a standard household remedy. They are the pure, original imported Haarlem Oil your great-grandmother used, and are perfectly harmless. The healing, soothing oil soaks into the cells and lining of the kidneys and through the bladder, driving out the poisonous germs. New life, fresh strength and health will come as you continue this treatment. When completely restored to your usual vigor, continue taking a capsule or two each day. They will keep you in condition and prevent a return of the disease.

Do not delay a minute. Delays are especially dangerous in kidney and bladder trouble. All reliable druggists sell GOLD MEDAL Haarlem Oil Capsules. They will refund the money if not as represented. In three sizes, sealed packages. Ask for the original imported GOLD MEDAL. Accept no substitutes.

Raise High Priced Wheat on Fertile Canadian Soil

Canada extends to you a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta. This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help feed the world by tilling some of her fertile soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think of the money you can make with wheat around \$2 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming in Western Canada is as profitable an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. There is a great demand for farm labor to replace the many young men who have volunteered for service. The climate is healthful and agreeable, railway facilities excellent, good schools and churches convenient. Write for literature as to reduced railway rates to Supt. of Immigration, Ottawa, Can., or to
